## WIN! a garage makeover

Want your garage to be like another room in your house?

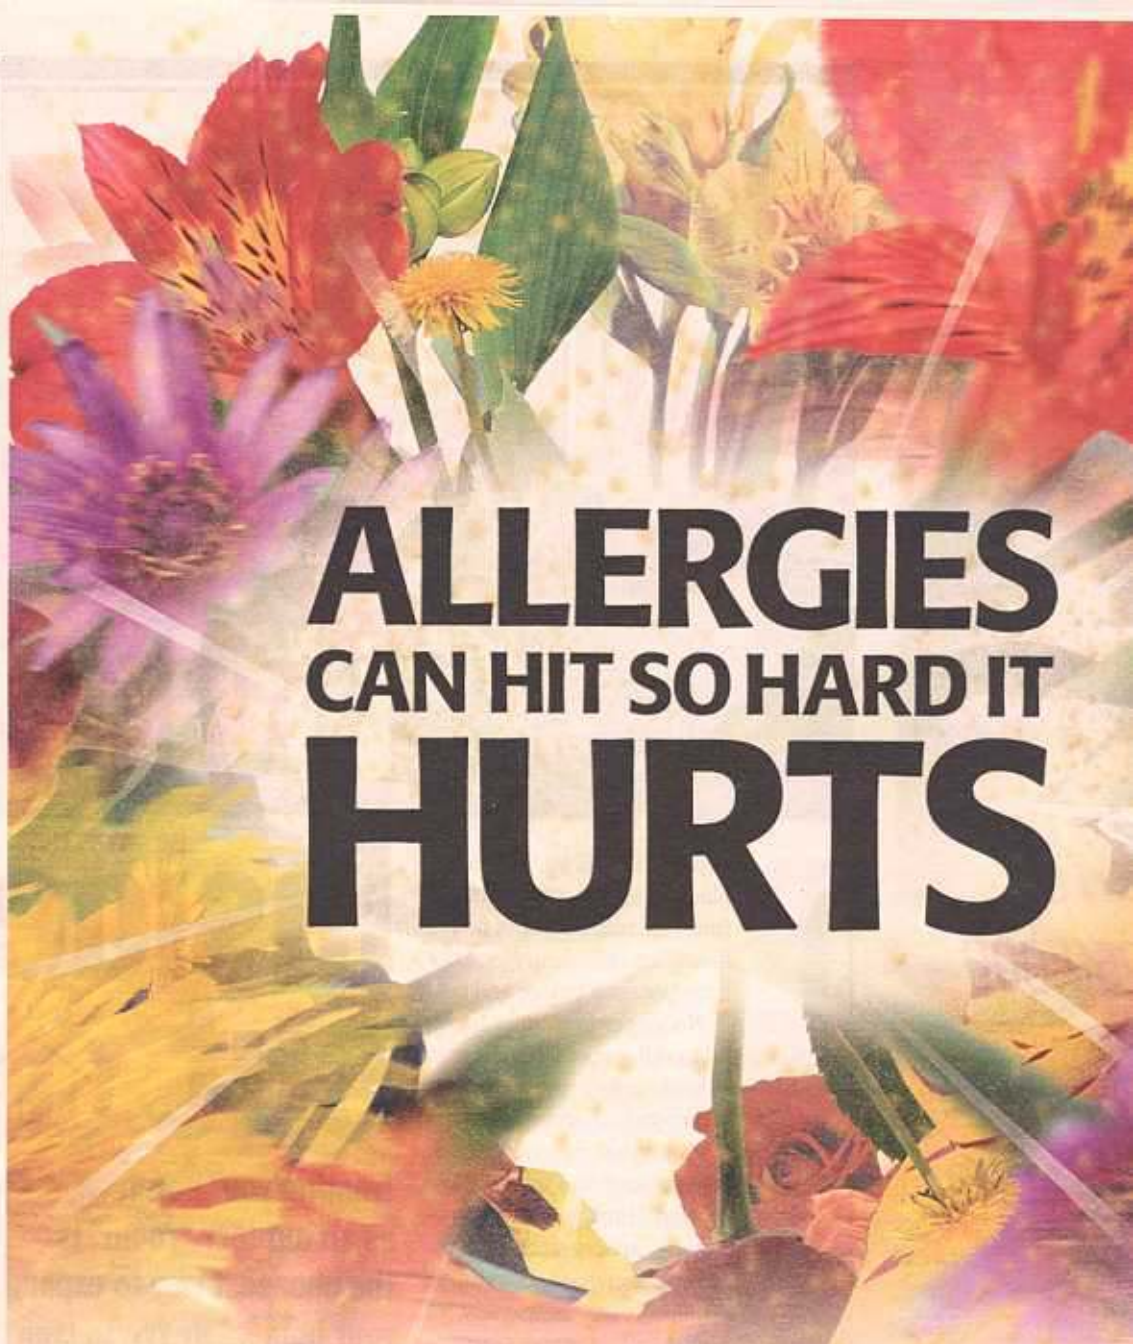

GarageTek, the leading brand of garage organization and storage systems, will choose one lucky reader of USA WEEKEND Magazine to receive a one-wall package, including cabinet racks, a workbench, bins and a tool holder.

The system features TekPanel, a patented durable thermoplastic material that offers the ultimate in flexibility because of its "slotwall" design. The components are securely installed, yet are not permanent and can be easily moved from side to side or up and down on panels.

It will transform your garage from the messiest room in the house into one that has plenty of storage and workspace — plus room for the car! This innovative system is a home improvement you'll be glad to have. GarageTek's prize fits on the back wall of a one-car garage.

Go to [usaweekend.com](http://usaweekend.com) and click on "garage" to enter!
